

The Roundtable

Newsletter April-May 2025

Random People

Because we value everyone that is a part of our community, we thought it best to hand our special messages out to random individuals who were simply in the right place at the right time. We wanted to show our appreciation to all members of the community including those who are not our customers (yet!).

Positive Cash

Our random amount of various cash surprises were accompanied by uplifting and positive messages for all to see. This was to encourage positivity and spread the happiness that we feel to be apart of the love that is a home-town.

May was a month of Generosity.

Some of the things we value the most as community bankers are our neighbors. What better way to show that than through the value word of the month, Generosity!

Together, members of the Roundtable handed out flowers to random individuals of our communities the week of Mother's Day; with each flower containing a positive, uplifting message and various cash surprises!
